MISSION:

The Director of the Foreign Missile and Space Analysis Center is responsible for the all-source analysis of foreign missile and space events; the maintenance of a 24-hour Control Center to monitor foreign missile and space events, the all-source analysis and evaluation of all foreign missile and space systems except those missile systems which are defensive in nature; and the dissemination through appropriate means of the results of these analyses and evaluations. He shall also assist in the establishment of requirements and provide guidance to collection resources designed to collect intelligence on foreign missile and space systems and operations. When required by the Director of Central Intelligence, or other appropriate authority he shall also provide his evaluation of the effectiveness of these collection systems.
